PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering graduate with hands-on experience in full-stack web development, AI-powered applications, and backend development. Built web applications using React, Node.js, Express.js, Python, and Flask, with practical experience in REST APIs, databases, Git/GitHub, and AI API integration. Strong foundation in Data Structures & Algorithms, OOP, DBMS, Operating Systems, and Computer Networks.

EDUCATION

Amity University Madhya Pradesh, Gwalior

B.Tech in Computer Science and Engineering | CGPA: 7.76 | August 2026

Class 12th (PCM) | Sri Ram H.S. School | 70.8% | Apr 2022

Class 10th | Ideal Public High School | 88% | Jun 2020

INTERNSHIP EXPERIENCE

Web Development Intern — Prodigy InfoTech

1-month Educational Internship

- Completed assigned web development tasks and gained practical exposure to software development workflows.
- Strengthened **debugging, implementation, and problem-solving** skills through hands-on development tasks.
- Successfully completed the internship and received a **Certificate of Completion and Letter of Recommendation**.

Web Development Intern — Hunar Intern

Remote

- Gained practical exposure to **web development projects and development practices** through assigned tasks.
- Applied and strengthened **web development, implementation, and problem-solving skills** while completing assigned work.

PROJECTS

AI Code Review Platform

[GitHub](#) | [Live Demo](#)

Tech Stack: React | Node.js | Express.js | Groq AI

- Developed an AI-powered code review platform that analyzes source code and generates automated feedback on bugs, optimizations, and code improvements.
- Built a React-based code editor with syntax highlighting and connected it to a RESTful backend using Node.js and Express.js.
- Integrated Groq AI to automate code-review suggestions and provide actionable developer feedback.

Wi-Fi Hotspot Attendance Management System (AttendX)

[GitHub](#) | [Live Demo](#)

Tech Stack: Python | Flask | HTML | CSS | JavaScript

- Developed a Wi-Fi hotspot-based attendance system that uses network/IP validation to verify students connected to an authorized network.
- Implemented teacher-controlled attendance sessions, student registration, and attendance verification through a Flask-based application.
- Designed an attendance workflow that records student details, IP address, and timestamp to support reliable attendance tracking.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, SQL

Frontend Development: HTML5, CSS3, JavaScript, React.js

Backend Development: Node.js, Express.js, Flask

Databases: MySQL, MongoDB, SQLite

AI & API Integration: Groq AI, REST APIs

Core Subjects: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Developer Tools: Git, GitHub, Visual Studio Code (VS Code)
